

Learning Curve: Progress in the Replication Crisis

January, 2023

Disclosure Statement

Manuscript title: Learning Curve: Progress in the Replication Crisis

Editor, AEA Papers and Proceedings

This statement is to fulfill the AEA Papers and Proceedings disclosure statement requirement. I wish to let you know that:

- 1) I have no financial/personal interest that could inappropriately influence my actions in relation to the contents of this article.
- 2) I am a researcher at the University of Oxford, a former consultant at the World Bank, and a research collaborator at Youth Impact NGO, the organization that conducted the research and implementation support for the studies in this paper.
- 3) The research and implementation in this trial were funded by UBS Optimus Foundation, Mulago Foundation, Douglas B. Marshall Foundation, Echidna Giving, SNF Foundation, Jacobs Foundation, Peter Cundill Foundation, J-PAL Innovation in Government Initiative, and the World Bank.
- 4) Study protocols and IRB were approved by the Nepal Health Research Council (reference: 776/2020), HML IRB (reference: 889OXFD21), and Columbia University IRB (reference: 21-384). The trials were registered in the AEA trial registry at AEARCTR-0009779.

Sincerely,

Claire Cullen
