

OECD Publications

World Energy Outlook

The OECD International Energy Agency's forecasts to 2000. Includes extensive statistical information. "... a most timely and very important analysis."—Daniel Yergin.

October 1982 500 pages 180 tables \$45.00

Employment in the Public Sector. Summarizes the trends in public sector employment and the implications of public sector employment growth.

June 1982 79 pages \$7.25

The Challenge of Unemployment. Documents significant trends and features in Member country labor markets and provides an analysis of policy responses.

June 1982 165 pages \$17.00

Government Debt Management. Explores and analyzes the technical features of options available to debt managers in OECD Member countries under present day circumstances. It deals with choices regarding debt instruments, methods of selling such instruments, and choices regarding the timing and announcement of government debt operations.

March 1982 60 pages \$6.50

Export Credit Financing Systems in OECD Member Countries. A comparative summary of Member country financing systems and an outline of the OECD arrangement on Credit Terms. Quantity prices available on request.

May 1982 252 pages \$12.50

Budget Financing and Monetary Control. Focuses on the problem of financing large deficits without compromising the achievement of monetary targets, and the extent to which public sector borrowing may constrain the financing of the private sector.

February 1982 124 pages \$13.00

Economic and Ecological Interdependence. Addresses the problem of how to assure the essential ecological basis for sustained economic growth.

April 1982 86 pages \$6.50
